Henry Kolker, an Indianapolis "matinee idol" at one time, having been the leading man for a season during the reign of the old Grand stock company; Louis Massen, Kate Lester. Lillie Hall, Emma Janvier, Adolph Jackson, Edward See and Louis Hollister. With such a company "Harriet's Honeymoon" should be well worth seeing. The curtain will rise this afternoon at 2 and this evening at 8 o'clock.

There will be lots of fun going on at English's the latter half of the week. "The musical shows, opens its first local engagement to-morrow night and remains for three nights and a Saturday matinee. It is well that this attraction has been booked for so long a visit, for the chances are that it will prove one of the most enjoyable entertainments of the season-for both young and "The Wizard of Oz" has been a wonderful success on account of its originality. being vastly different from all other musical extravaganzas that have been promment on the American stage during the last five years. Everybody who has read the delightful children's book by Frank Baum. from which the entertainment has been made, will look forward with unusual interest to the appearance in flesh and blood of the Scarecrow, the Tin Woodman, the Cowardly Lion, the Wizard himself and the Kansas maiden, Dorothy Gale, as they are to be seen in the stage version of the fascinating fairy tale. With Montgomery and Stone, Anna Laughlin, Arthur Hill and a number of other well-known comedians and singers, "The Wizard of Oz" is sure to be a most attractive theatrical offering. The seats are now on sale at English's box office for the four performances.

Viola Allen is a sick woman. She has the waistings of the season, silk and wool been compelled to retire from the cast of her great Shakspearian revival of "Twelfth Night" in order to have an operation perinner ear. The distinguished young actress s now at the Eye and Ear Hospital in New York city, and the physicians say that if she had been permitted to go on with her stage work for another week or two without having had the operation performed there would have been no hope of her recovery from the malady. Saturday night Miss Allen displayed a degree of courage not far removed from heroism. Suffering intense pain she called her company around her and told the players that she was sorry that any trouble of hers should cause theminconvenience, and said that she would be compelled to give up her New York run in "Twelfth Night." She tried to smile, but the attempt was pathetic and the members of the company, after extending to her their heartfelt sympathy, left the theater with tears in their eyes. Miss Alien is booked to play an Indianapolis engagement in April. It is thought that she will be

able to take up her tour within a month. There have been all sorts of explanations

Great Artesto at the Grand this week-explanations that are quite satisfactory to the persons who vouchsafe them, but which are hardly acceptable to those, theatergoers who have "figured out" the puzzle in their own peculiar way. In fact, every auditor at the Grand this week has his own ideas as to how the trick is done, and it is doubtful if there is one correct solution in a hundred. The little automaton that acts as orchestra conductor and portrait artist is as great a wonder as was Magician Keller's "spirit hand" in the glass cabinet. The trick is performed by a Frenchman who is not seen at all by the audience. The retty French woman who puts the mechanical figure through its exercises has nothing whatever to do with the workings of the 'dummy." She has a good voice and knows how to use it. She is twenty-four years old, thirty-one inches high and weighs thirty-three pounds. The Liliputians have a trophy of which they think a good deal and which they utilize in the production. It is the carriage which Tom Thumb used when he was gaining fame with P. T. Barnum. The carriage is on the order, and hardly half the size, of those which roll about Indianapolis streets, but it is painted in gaudy colors, and "Queen Mab" rides in it in one scene when she is drawn on the stage by two ponies. The carriage was purchased from the Barnum estate. The Park's attraction beginning to-morrow will be "King of the De-+ + +

### Are You Watching the Furniture As it comes and goes this month; saving hundreds of dollars in the aggregate to our

customers? Of course you will see pieces you don't like-but some one else likes them. You

will see some very fine furniture-costing more than you care to pay, perhaps-but some one else snaps it up in a minute. Again you will see pieces that you think too cheapbut they are good and well made—and they fit some one's pocketbook.

That's the very charm of the sale—it is cosmopolitan; it caters to all families; there is something good for every one desiring furniture.

Come in early and walk over the fourth floor-with a salesman or alone. It won't be five minutes before you are ordering some pieces sent home. The saving averages a third; in some cases it is more, in some less.

> time and is at the English, where he will ica and has a large clientele in many of Indianapolis, but he is being warmly welcomed by lovers of art here, who find much that is fresh and unusual in his drawings. Mr. Waters's subjects are all English and they have the charm that can be given only by the artist who paints with love and understanding of his subject. The quaint, rambling villages, the picturesque thatched cottages-picturesque with a mellowness and softness that modern America knows not at all-the rich verdure, soft with dews and rains, the calm lakes and smooth pools -everything is typically English, and the pictures carry a breath of the real "atare quite the reverse of the water-color drawings of the American school; instead | West is with the view of establishing his ry the suggestion rather than the definite tures are exquisitely finished in every detail and have the depth of color and the the delicacy which is the chief charm of to lose the "texture" in catching the

A notable feature of the paintings is the charming manner in which figures are inthe least disturbing it. Usually the introduction of figures in a landscape painting is jarring, chiefly for the reason that a landscape painter is seldom a figure painter to be slipshod in drawing. Mr. Waters, however, spent a number of years in figurepainting, and the figures he puts into his soft English landscapes only serve to emphasize the charm. The perspective of his drawings is also one of their notable points "In a few days she called on Clara and and in addition to the beauty of the faith- dustrial Home will serve dinner in Tomlin wall pockets filled with tulips and jonquils | we are all asked out there for next Tues- | fully depicted foreground of the picture and mantels banked with palms and ferns. day. "A Sultry Day in Tarpoley" shows a smooth country road, bordered by grass and flowers wandering off into the distance. A view of the old Bidston mill in Cheshire is a delightful bit of composition, and the heather-grown slopes leading up to the quaint old mill are rich and soft in coloring. Mr. Waters spends about five months of the year in England painting, and the remainder of the time he spends in the United States. His studio in London is 108 the

Many of the artistic people in Eastern cities are now owners of his paintings and he has also filled a number of commissions from Americans. With his own paintings Mr. Waters also carries a number of the marine views of a fellow artist, Robert Malcolm Lloyd, which are also notable pictures. American watercolorists who do marines are frequently apt sparkle, but Mr. Lloyd achieves both in his admirable drawings. The most charming of those shown here is "The Harbor of Penzance," which lives up to its name in its romance and beauty. A golden light breaking on sky and sea touches the clouds and waves and the dingy sails to glowing bits of color. The pictures are wonderfully breezy in effect and the movement of the water, the swing of the boat, is full of realism.
